

To reinforce our team, we are looking for a

Mechanical engineering designer (m/f)

Your duties:

- Independent development and design of special machines with Solid Edge
- project management
- Occasional commissioning at home and abroad

Your profile:

- Completed degree in mechanical engineering (FH/TU), specialising in design or corresponding completed technician training, paired with relevant work experience
- Ability to work independently, creatively and carefully
- Good professional experience in handling CAD systems and in the field of machine and plant technology
- Limited willingness to travel, flexibility, ability to work in a team and basic English skills.

We offer:

An independent, team-oriented, responsible position and performance-related pay in a challenging and varied field of activity.

Please, send us your entire application papers in:
